Take The Fall

Music: Askeland Lyrics & Melody: Rogers

Another lonely night alone
Wondering if you're coming home
Lately we don't seem to talk
Secrets kept and it won't be long

Setting myself up to take the fall
I'm setting myself up to take the fall
The truth will be withheld no more

(Take the fall)
Better times now a faded past
(Take the fall)
Seems that the darkness will forever last
(Take the fall)
Things aren't what they used to be
(Take the fall)
Missing the one that once was part of me

Finally start to figure it out
There's someone else
Of this I have no doubt
Burn the candle at both ends
All this time you said he was a friend

Setting yourself up to take the fall
You're setting yourself up to take the fall
Close to the edge and I will take no more

(Take the fall)
Better times now a faded past
(Take the fall)
Seems that the darkness will forever last
(Take the fall)
Things aren't what they used to be
(Take the fall)
Missing the one that once was part of me

And the time will come around
You'll realize just what you had

Love is pain inside
The end in front of me
Love is hate inside
Why can't you let this be
No more tears I'll cry
You want to be free
Then be free
Now we'll say goodbye
Goodbye

Take the fall
Take the fall
Take the fall
Take the fall
